K-Stop® Shuttering Batt

Technical Data Sheet

Description

Kingspan K-Stop® Shuttering Batt is a rock mineral fibre slab designed to be used in conjunction with Kingspan K-Stop® Compound Fire Mortar as a shuttering material. It is available in a standard thickness of 50 mm.

General Properties

Property	Typical Value
Standard Dimensions	Length: 1200 mm Width: 600 mm Thickness: 50 mm
Density	160 kg / m ³
Material	Rock mineral fibre

Fire Performance

K-Stop® Shuttering Batt does not require fire testing as it is for shuttering use only.

Please contact the Kingspan Technical Insulation technical services department for further information.

Application

K-Stop® Shuttering Batt is used to fully shutter a floor opening and should be supported in place with either timber or metal.

Installation

When installing, K-Stop® Shuttering Batt should fully cover the opening and any gaps should be filled with cut pieces of the batt.

Kingspan K-Stop® Compound Fire Mortar can then be poured into the opening from above as per the manufacturers instructions. Once K-Stop® Compound Fire Mortar has fully set, the K-Stop® Shuttering Batt can either be removed or left in place as desired.
